## **ZAPPIT™ Shock Treatment and General Sanitizer from PPG**

Professional Grade Products for Professional Pool Dealers

Professional Pool dealers have long known that when it comes to calcium hypochlorite-based shock treatments and general sanitizers, the higher their chlorine content, the more effective their performance.

For more than 50 years, PPG has manufactured its cal hypo products to meet the high quality strength standards that pool pros expect, and that their customers have come to rely upon to maintain crystal clear pool water. The Zappit family of Shock and Sanitizer products come in a variety of sizes and forms (both regular grade and quick dissolve granules.) Eye catching labels. Proven performance. Heavy weight results.
